copy to: Mr. & Mrs. C. Barton
Owner & Manager of H & R Block

TABLE OF CONTENTS

List of Figures	i
Acknowledgements	ii
Abstract	iii
I. Introduction	
A) Statement of Problem	1
B) Objective of Report	1
C) Plan of Procedure for the Report	1
D) Block diagram	1
II. Theory of operation	
A) Types of Designs	2
B) Conversion Requirements	2
C) Comparetor Circuits	3
III. Project Development	
A) Power Output Requirements	3
B) Type and Purchase of Transformer	3
C) Battery requirement Choice for Battery	4
D) Choose Type of U.P.S. design	4
E) Design Battery Charger	5
F) Design A.C. Voltage Line Detector	6
G) Design D.C. Low Voltage Detector	7
H) Inverter Circuit Design	8
IV. Conclusion	9
V. References	
Appendix A: Proposal of Design	
Appendix B: Table of Contents for Design Schematics	
Appendix C: Table of Contents for Data Sheets	
Appendix D: Table of Contents Research Articles	
Appendix E: Bill of Materials	
Appendix F: Speech outline and overheads used in Com. 315	
Appendix G: Bibliography	

Uninterruptible Power Supplies

By: Diane Barton

ACKNOWLEDGMENTS

I would like to thank the people that work with Mr. Dean Rahm for all the technical and product information on U.P.S. and for flying from California to give this information to me and discussing my designs I had at that time.

I also want to thank Best Technology for the discount on the Battery and Capacitor needed in this project. Also for their donation of the Transformer that was very important to the completion of this project.

ii.

ABSTRACT

This report is about designing a 1.5 KVA Uninterruptible Power System. Included are schematics, research material, data sheets used in the designing and building of the UPS.
